Implementing REACH

March 2017

Dear Madam or Sir,

Thank you for your letter of inquiry regarding the topic REACH.

According to the provisions of REACH Mesa Parts as manufacturer of products is to be regarded as a downstream user. As a matter of principle, Mesa Parts as a downstream user observes all requirements resulting from REACH.

Products which you purchase from us, are by definition of REACH, not to be registered. Chemical substances contained in our products which may possibly be subject to registration, have to be registered exclusively by our pre-suppliers.

In our own interest and to ensure a high level of safety in our production, we observe the implementation of REACH and its resulting demands closely. In particular, we contacted our pre-suppliers from whom we purchase chemical substances and preparations. We use these substances in the course of our production process (e.g. auxiliary substances like lubricants, adhesions, colorings, lacquers etc.). Our processes are mainly standard applications which are operated in many industries in large tonnages.

If we receive informations about SVHC-substances in products from our sub-suppliers, we will immediately forward these informations to our customers in compliance with Art. 33 REACH-regulation.

In case of further questions regarding the implementation of the REACH regulation in our company, please do not hesitate to contact us.

Sincerely yours,
Mesa Parts GmbH
